The patented DeckLok® Advanced Lateral Anchor is revolutionizing the deck industry by providing a bolted connection at all critical structural locations. This system achieves the strength required to meet or exceed existing building codes for lateral pullout and guardrail post stability using standard construction designs and techniques.

Recent studies confirm that common methods of wood blocking used to fasten frame-mounted guardrail posts, and common methods of making ledger connections, fail to meet the International Residential Code.

Exceeds IRC and IBC 2006, 2009 and 2012 Code Requirements

Anchors Available in...
- Code-Compliant Hot-Dipped Galvanized
- 316 Stainless Steel

Recent studies confirm that common methods of wood blocking used to fasten frame-mounted guardrail posts, and common methods of making ledger connections, fail to meet the International Residential Code.

For Existing Structures or New Construction

Superior Stair Stringer Connection
Reinforces the connection between the stair stringer and the deck frame to reduce the possibility of the stairs shifting away from the deck.

*In Compliance with: 2006 IRC R502.2.2.2 - Deck lateral load connection (See details at www.Deck-Lok.com/code)
For Peace-of-Mind and Added Value...

Build In Safety with DeckLok®!

- ICC-ESR 2114
- Common Methods of Blocking in Guardrail Posts to a Structural Wood Frame Fail to Meet Code*
- One Pair of DeckLok® Lateral Anchors Provides Up To 4,000 lbs. of Pullout Resistance
- DeckLok® is the Most Cost Effective Way to Consistently Build a Safe and Secure Deck and Guardrail System

DeckLok® Patent #6,311,449. Other patents pending.

DeckLok®

$100,000 Guarantee

Screw Products, Inc. guarantees the structural integrity of the DeckLok® Lateral Anchor, covering all materials, labor, and any medical expenses up to $100,000 resulting from a failure of this product.

For a Complete Copy of the Guarantee, Visit... www.Deck-Lok.com/guarantee

RailLok®

Half the size of DeckLok™, but just as tough! Provides a strong, reliable railing-to-post connection. Stocked in 316 Stainless Steel, and Black or White powder coat finish. Custom colors available on request.

Pressure Treated Compatible Made in The USA!

For Stair Stringers, Ledgers and Railing Posts!
